THE REFUSE-TO-FUSE™ COUPLING FOR HDPE PIPE

The Victaulic® Style 905 coupling is specifically designed to join 2–8" IPS | 63–160 mm ISO high-density polyethylene (HDPE) pipe and eliminates the need for fusing.

Benefits

- Rated for use with HDPE pipe ranging from SDR 7–17
- Coupling ready for immediate installation – no cooling or heating time required
- Visual confirmation of correct installation when coupling housings are fastened bolt pad to bolt pad
- Stainless steel retaining rings engage the full pipe circumference allowing the joint to perform to the rating of the pipe while also providing a self-restrained joint
- Save time and money – no fusion equipment or specialty tools required
- Can be installed with standard socket or impact wrench
