

STRENGTHIN™ 100 SYSTEM

FOR THIN WALL STAINLESS STEEL PIPE

- No need for a highly qualified welder or fire watch
- No need for pickling or passivating the joint
- No weakening of the stainless steel material
- Total installed cost savings
- Easier material handling
- Faster installation

THE WORLD LEADER IN PIPE JOINING SOLUTIONS

ELIMINATE THE CHALLENGES OF WELDING THIN WALL STAINLESS STEEL PIPE

DISCOVER THE LATEST
ADDITION TO THE SYSTEM:

Series E125 Installation-Ready™ Butterfly Valve

WHEN VALVE MEETS COUPLING: MATCH MADE IN HEAVEN

- Pre-assembled valve - just push it on a piece of grooved pipe
- Faster assembly compared to flanged wafer valves
- Lower profile design and weight than wafer valves
- Pad-to-pad visual confirmation of a proper installation
- Fully-lined waterway
- Multiple seat and operating options

SCAN TO REQUEST YOUR DEMO!

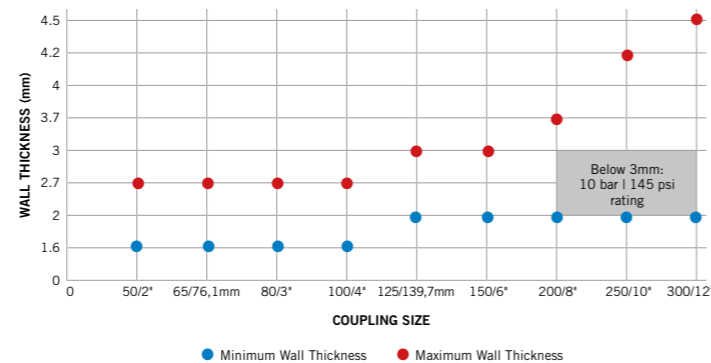

FEATURES

- Installation-Ready™ technology
- Available from DN50 – DN300 | 2" - 12"
- Coupling available galvanized or thermoplastic coated
- No torque requirements
- Gasket materials
 - Grade "EHP" EPDM
 - Grade "EF" EPDM
 - Grade "T" Nitrile

FOR THIN WALL STAINLESS STEEL PIPE

Style E497 Rigid Coupling is rated up to 16 bar | 232 psi for use on various wall thicknesses.

Grooved Installation Process

Welded Installation Process

APPLICATIONS

- Cooling, chilled and heating water
- Air with oil vapors
- Potable water
- Stainless steel system applications

REDUCE LABOR RISK AND ENHANCE SAFETY

- Fewer steps to install
- Consistently faster pipe joints
- Optimize crew size
- No flames or noxious fumes

NO CHEMICAL PIPE TREATMENT REQUIRED

- Clean and uniform joint quality
- No need for pickling or passivating
- No weakening of the pipe
- No risk of overheating the pipe

INCREASE INSTALLATION SPEED

- Installation-Ready™ technology
- No disassembly, no loose parts
- Visual confirmation of a proper installation
- Install in every weather condition
- Less installation steps

WELDING STAINLESS STEEL PIPE REQUIRES OVER **88%** MORE MAN-HOURS ON AVERAGE

FASTER AND CLEANER JOINTS RESULT IN FASTER COMMISSIONING AND LOWER TOTAL INSTALLED COST

REDUCE TOTAL INSTALLED COST

- Optimize crew size
- No cost for fire permit
- No highly qualified welder required
- Increase on-site efficiency

NEW UNIQUE GROOVE PROFILE

- No pipe flare possible
- Increased coupling engagement
- Tool rental package includes:
 - Tool and roll sets
 - Pipe cutter
 - Pipe stand
 - Go/No-Go pipe cable

WHY THIN WALL STAINLESS STEEL?

- Increase the life of the system
- Eliminate the cost of pipe coating
- Save on costs and time for flushing the system
- Ease of material handling
- Reduce system weight
