In 1952, Victaulic released the first UL Listed grooved mechanical coupling for fire protection piping services. Today, Victaulic technology includes a complete offering of fire protection grooved couplings, fittings, sprinklers, devices and accessories to meet the needs of fire protection piping systems.

**APPLICATIONS**
- Storage and Cold Storage
- Parking Garages
- Multi-Family Residential
- Infrastructure
- Data Centers
- Buried Services
- Industrial
- Commercial:
  - Hospitals
  - Office Buildings
  - Stadiums and Arenas
  - More

**APPROVALS/COMPLIANCES/LISTINGS/CERTIFICATIONS**
- FM
- LPCB
- CULUS
- CE
- VDS
- CCCF

**COMMITTEES/MEMBERS OF**
- AFSA
- NFPA
- NFSA
- SFPE

**MARKET SEGMENTS**
- Wet Pipe Systems
- Dry Pipe Systems
- Special Hazards - Hybrid Fire Extinguishing

**SOLUTIONS & SERVICES**
- Lean Prefabrication Strategies
- Customer Training
- Software Content Provider
- Applications Engineering
- Revit Software Solutions
- Project Management Services

**KEY INNOVATIONS**
- VICFLEX™
  - Dry Sprinkler
  - Captured Coupling
  - Low-Profile
  - Cold Storage
- FIRELOCK™ Innovative Groove System | IGS™
  - Small Diameter 1" Installation-Ready™ and Roll Grooving Technology
- FIRELOCK™ Installation-Ready™ Couplings and Fittings
- FIRELOCK™ Automatic Sprinkler Storage Solutions
- Corrosion Resistant Materials and Coatings
- Hydraulic Control Valves
- Victaulic Vortex™ Hybrid Fire Extinguishing System
- System Solution for HDPE Pipe

**NOTABLE PROJECTS INCLUDE**
- Independence Hall
- World Trade Center Complex
- Alexandria Library
- Facebook Data Center
- CTF Finance Center
- Bellagio Las Vegas
- Hung Hom Station
- Microsoft® Data Center
- Burj Al Arab
- Petronas Towers
- Shanghai World Financial Center
- Eisenhower Johnson Memorial Tunnel
- Manila Bay Resort and Casino
- Hudson Yards
